

Dear NACURH Board of Directors, NRHH National Board, and NACURH member schools,

I, Coty Behanna, am regretfully resigning as NACURH Associate for NRHH effective immediately. The passion, energy, and commitment to NACURH and NRHH that I started this term with was recently dampened by a sudden and intensely saddening family situation.

It pains me to leave an organization and a position that I have found such solace in throughout my time as an undergraduate and graduate student, but I can no longer fulfill the responsibilities of the position while also completing my final year of graduate school and being a primary medical advocate for a close family member.

As sad as I am to prematurely turn the page on this part of my life, I am strengthened by the fact that NRHH is in a strong place, and will only get stronger by the dedicated student leaders that are the core of this organization.

Respectfully,

A handwritten signature in black ink that reads "Coty Behanna". The signature is written in a cursive, flowing style.
