

# TEAM COMMUNICATION WITH SLACK / Vermont Fest 2016

We will presenting two sessions on Slack - a top team communication tool that aids in any kind of collaborative environment, and that's what this community is! Easily build a wiki and make the posts searchable, add supporting documents, organize by hashtag and theme, have parallel private chats, and this can also be a great workgroup tool for in-school teams of all types, tech or no.

**Wednesday** is a "hands-on" session that will get you up to speed with the basics of Slack. The **Friday** session will delve deeper into this powerful team communication tool.

## When and where:

### Wed Pre-Conf Session / 5:30pm

Join us Wednesday evening for one of these preview sessions — free to conference registrants. **Start at 5:30 PM.**

#### **SLACK — The New School-IT?**

Alan Steel

Come to get some hands-on work with Slack if you can't make the Friday presentation, a communication tool you may find useful in your Districts. Great lead-in to the Friday session.

### Friday Conference Session / 8:30am

SLACK – The new SCHOOL-IT?  
Craig Donnan and Alan Steel

Come explore and help launch a tool that could transform how we work together in the VT Ed Tech community. This top developer tool aids in any kind of collaborative environment, and that's what this community is! Easily build a wiki and make the posts searchable, add supporting documents, organize by hashtag and theme, have parallel private chats, and this can also be a great workgroup tool for in-school teams of all types, tech or not.
