Used Computer Equipment for Sale - Invitation to Bid

November 6, 2017

CESU-MMMUSD welcomes bids for the purchase of its used computer equipment. The vast majority of the equipment is functional. There are some non-functioning devices, too, that may be used for parts or recycled. The list of equipment is shown below.

Details:

- The equipment will be sold as one package. The successful bidder must take all of the equipment, both functional and non-functional - may not pick and choose.
- Bidders are welcome to inspect the equipment before bidding. Contact Steve Jarrett to make arrangements.
- Equipment is loose and may be in boxes, but is not palletized. Our tech support staff will assist bidders in loading the equipment, if requested.
- There are three centralized pickup locations, each within 10 minutes drive of each other.
- Most functional devices have been re-imaged with their original Windows or Chrome OS. *Some HP 3115s and HP 3125s may have Chrome OS installed.*
- Server hard drives are blank - no OS or license.
- There may be other functional and non-function computer peripherals included, but which are not listed, for example, mice, keyboards and printers.
- Payment due at time of pick-up: cashier's check or other method through prior arrangement with the CESU-MMMUSD business office (contact Steve Jarrett).
- CESU-MMMUSD makes no guarantee or warranty on the equipment. It will not accept returns or requests for reimbursements. What you see is what you get.

Timeframe:

- Submission deadline: November 27, 2017, 3:00 P.M. EST
- Bidder selected and contacted: November 28, 2017
- Pick-up date range: November 29-30, December 5-8, or December 11-15, between the hours of 8:00 A.M. and 1:00 P.M.
