

Create Make Learn Institute is coming to

Southern Vermont

July 13-17, 2020

What will you Create, Make, and Learn this summer?

Create Make Learn Summer Institute provides educators with the opportunity to create confidence using tools and practices to design hands-on minds experiences for their students.

- Explore design thinking as a framework for problem solving.
- Participate in a hands on sessions that create confidence with new tools and techniques for learning through creating and making.
- Complete and share a Meaningful Making Project applying your learning through design, creating, and making
- Complete a curricular unit or school project where creating and making are central to learning goals and provide opportunities for students to develop growth or proficiency of Vermont Transferable Skills.
